Re: MW-32C Location

Eric,

The location of Well-32C is approved as we discussed previously.

Thanks,

MW-32C Location

Hi Gary –

Hope you are feeling better.

Per my voice mail on Monday and our conversation yesterday, I am sending this e-mail to confirm the proposed location of well MW-32C. As we discussed, the location is approximately 75 to 100 feet southeast (compass direction) of well NE3MW30B - see attached figure for NE3MW30B location. The first isolation casing (through Zone A) for this well was installed on Monday, the second isolation casing (through Zone B) is being installed today, and it is anticipated that the well will be completed tomorrow. We will have the well location surveyed after it is completed and provide an updated map to you thereafter. Please let me know if you have any questions.

Thanks.
